

Consumer Price Index (CPI)

(updated upon release of figures from the Bureau of Labor Statistics - around the middle of following month)

Below are tables of the Consumer Price Index and the Medical Care Component of the Consumer Price Index -- CPI-U and CPI-W -- from January 1988.

Also included for 1995 and later years are the average CPI values for each quarter, the first half, and the entire year, along with the % increases from the corresponding prior year amounts.

A brief explanation of these values can be found after the tables.

--- 2011 ---	CPI		MEDICAL CPI

Notes

CPI-U covers approximately 80% of the total urban population. Since January 1983, CPI-U has been using a rental equivalency measure of homeownership costs.

CPI-W covers approximately 38% of the urban work force. Since January 1985, CPI-W has been using a rental equivalency measure of homeownership costs.

Note that the base period is 1982 - 1984 = 100.
