What's Happening in Global Equity Compensation

buckconsultants

Thursday, March 18, 2010 – 8:00 a.m. – 10:30 a.m.

A complimentary breakfast briefing hosted by Buck Consultants

Join us for an engaging session on the latest trends and issues in equity compensation. Focusing on the use of long-term incentives in knowledge-based companies, this event will include presentations from Akamai Technologies and Genzyme Corporation as well as Buck, and feature a facilitated discussion among attendees.

We'll also share data from Buck's 2009 iQuantic® Global Long-Term Incentive Practices Survey and review how equity compensation practices have changed among a unique set of companies between 2007 and 2009. In addition, we will be providing a demonstration of our survey tools and reports.

During this briefing, we'll explore:

- A perspective on what equity is worth
- Who within an organization receives equity
- The different types of equity vehicles used
- How much value is provided to employees
